

# 717-BN 3 Piece Shower Set

## Shower Sets

Shower sets play an integral part in any bathroom; showers are usually the start or finish to a day. Our shower sets are available with a standard multi-spray head or with a relaxing rainfall spray head. The limited temperature stop will prevent scalding when a toilet is flushed as it maintains a constant temperature regardless of incoming water pressures. Each set comes with the handle and valve so no additional parts need to be purchased separately.
